

Valentin Nunez

Full-Stack AI Engineer · Production Systems · WhatsApp Automation · RAG · SaaS

Buenos Aires, Argentina · +54 11 6175-9011 · valentin.nunez.dev@gmail.com · linkedin.com/in/valentin-nunez · github.com/Apolonio420 · portfoliovnunez.vercel.app

I build AI-powered production systems that run real businesses — not demos. My specialty is taking an idea from zero to a fully deployed product: SaaS platforms, WhatsApp sales bots, AI design engines, and enterprise healthcare systems. 2,000+ hours of AI-paired development with Claude Code. Bilingual English/Spanish, available for US timezone overlap.

EXPERIENCE

- Head of Development — OSPRERA

Healthcare organization · 3M+ beneficiaries · Buenos Aires

Jan 2024 – Present

 - Promoted from developer to Head of Development within 3 months based on delivery velocity
 - Built web portals for document management, internal process tracking, complaints module, and Power BI operational dashboards
 - Replaced manual workflows with automated systems, reducing processing times across multiple departments
 - Lead development team, manage priorities, and architect technical solutions for the organization
- Founder & AI Product Engineer — Novamente

AI-powered custom apparel SaaS · novamente.ar

Jan 2022 – Present

 - Built complete SaaS platform solo from scratch: 101 API endpoints, 180+ pages, serving real paying customers
 - Engineered WhatsApp sales bot handling 50+ concurrent conversations — autonomous 7-state playbook from greeting to payment
 - Created AI design engine generating product mockups in 37 artistic styles via Gemini image generation API
 - Built RAG-powered sales assistant (Nova) with vector search over business documents, integrated payments, and live design generation
 - Developed full e-commerce storefront with cart, checkout, MercadoPago + Stripe payment integration
 - Architected B2B partner workspace with role-based access, order management, and real-time notifications via Supabase Realtime
- Lead Developer & AI Architect — HealthTech Platform

2025 – Present

 - Architected enterprise healthcare platform: 49 domain modules, 73 routes covering clinical, finance, compliance, provider network, and patient portal
 - Implemented AI-assisted clinical workflows, automated compliance reporting, and real-time analytics dashboards
- Tax Analyst Semi-Senior — EY (Ernst & Young)

Nov 2021 – Jan 2024

 - International tax return preparation in English for multinational clients (Big 4 experience)
 - Automated repetitive processes with Python scripts and Excel VBA macros, reducing team delivery times

TECHNICAL SKILLS

Frontend: React 19, Next.js 16, TypeScript, Tailwind CSS 4, shadcn/ui, Framer Motion

Backend: Node.js, Python, PostgreSQL, Supabase, Prisma, REST APIs, Docker

AI/ML: Gemini API, Claude API, OpenAI API, RAG, Vector Embeddings, Multi-Agent Systems

AI Tools: Claude Code (primary), Cursor, ChatGPT — 2,000+ hrs paired dev

Integrations: WhatsApp Cloud API, MercadoPago, Stripe, Cloudflare R2, Google Sheets API

DevOps: Playwright, Vitest, Vercel, Sentry, GitHub Actions CI/CD, Docker

KEY PROJECTS

- AI Design Engine · Gemini API · Next.js · Supabase

Complete design system: 37 styles, proprietary prompt optimizer, real garment mockups, background removal. Users type a prompt, get a print-ready design in seconds.
- Nova — RAG Sales Assistant · Gemini · Vectors · WhatsApp

AI chatbot with full catalog knowledge, live design generation, mockup display, and integrated payment — closes sales autonomously within the conversation.
- Jarvis — AI Orchestrator · Python · Gemma 4 · Claude Code

Personal AI routing between local Gemma 4 (free GPU, 63 tok/s on RX 9070 XT) and cloud models. Voice I/O in Spanish, autonomous overnight worker, budget tracking.
- 300+ Business Tools · Next.js · TypeScript · Tailwind

Built 300+ standalone tools (POS, CRM, inventory, invoicing, scheduling) using AI-paired development. Live demos at portfoliovnunez.vercel.app.

EDUCATION & LANGUAGES

Systems Engineering (incomplete) — UBA, 2015–2020

Certifications: Data Integration 1 & 2, Python APIs & ChatGPT 4, Prompt Engineering (4+ years)

Languages: English (Bilingual/Professional) · Spanish (Native)
